

ITS BETTER TO SEEK REDEMPTION **BEFORE THE RIGAMORTIS SETS IN...**

Love & Respect to those who seek redemption!!!!

Don't give up and don't give a fuck
but make sure when your time comes
your prepared to put them up
for the next generation to have a chance
take off them fucking masks
dont run into the devils hands
thinking for serving
you'll be earning
but really it be burning
when its to late to be yearning
for the chance to turn a curve in
this world of sin
so take this chance for learnin
cause we all family
if you want to be
I face the system
from the bottom
standing alone
I cant stop em
regardless i carry on going
till I'm dead and gone
legacy never forgotten
but continually passed on
"the Infinite Lesson" is a continuum
and our day will come
just as the morning sun
we wont be undone
they so obsessed
with Immortality
chasing fantasy
that will never be
but throughthe Temple of Hip Hop
we can see and keep the continuity
Peace, Love & Unity
loving freedom to put it simply
showing others the way
so if they take my last breath away
they will carry iton to the next day
and no matter how many times
my tribes are denied
their rights and their lives
the spirits wont hide
and will forever reside
in Gaias pulsing lifestream
coming back and slowly remembering
till the spirit is back
to where they left off

the knowledge i just dropped
is the infinite lesson
and can not be stopped
but this knowledge gets lost
on those at the top
when they too busy
trying to be the boss
whatever the cost
suddenly realise
just as their heart stops
when I'm asking all humans to see sense
before their organic vessel is just remnants
of decaying matter not even any final respects
liquid cremation in huge 30 foot vats
soy-lent green is a vision they have...
recycle humans to feed the plants
is that where we at!
so many US states
have already begun flushing liquified remains
down into the sewers and drains
until its treated and sold as bio sludge
supposedly good food for the crops
more like chemical waste for the C.H.U.D.S.
as sad as that is its of no matter to me
back to the topic of immortality
I have remained thanks to all those before me who gave
forever true to the game
in many forms that astral projekt
old to the new, new to the next
'infinite reset'
that lives on through respect
I thank the heavens
for all of my blessings
shout out to Koze K. for transmittion of lessons
and the higher spirits
that will always be in attendance
sometimes the life stream splits
too make a powerful soul 2
and this is an inevitable force
that has never been lost
and it remains clear
when im feeling it here
and the message is sincere
and helps overcome fear
holding us back
spitting hard facts
always quick to react
to tyrannical acts
pulling people from the darkness
when esoteric bars hits
acceptance of the truth
that our species would lose

if Gaia didnt feel proof
of enough humans paying spiritual tributes
by simple things like taking off socks and shoes
stand in the woods without technological abuse
unless its music through a sound system
as that is the 1 benefit to come out of it
and this will help unite the spirits
of frequency driven
paradigm shiftin
forever upliftin
community
in unity
moving to the beat
as a singularity
that moves as 1
and this is all that needs to be done
and yet these words will be twisted
by the drones who so willingly enlisted
so quick to enable believing the fable
how many times i gotta say
YOU AINT GOT NO SEAT AT THE TABLE
Ha haaa
but in the end they have the future in store
so quick to build and install
a prison and walk in
while they lock the door
fear breeds obedient boot licker's
positioned nicely for the infinity kickers
like in Orwellian premonitions
willingly conditioned
to have Babylon harddrives
installed with precision
into their brain so their only vision
is what these demons want to have fitted
tyrants were so committed
signed the contract and never turned back
well we all still have a chance
to change our own paths
and this is a glance
into the future
and what theyll do to ya
and thats just a fact that wont change
even if im killed and get sent back again
that was always my destination regardless
... or did you forget that...?
will you be the slaves
who will never be killed
but tortured for the devils thrills
thats really the plan
of what devil owned man
will be on this land
and you can be a hero

or a punk ass bitch
and if you dont right your wrongs
that you made under oath
then by their belief system
the karma is cold
and thats on you
and by their law
they havnt done wrong
as they told you
what this would do
but still you carried it through
and even the circle within a circle
within a circle is subject to
this little burden
that was not behind the curtain
but directly on them
to not do these deeds
and hopefully this poetry
helps 1 of you to break free
as you are the victims in reality
your the ones thats been the most deceived
if you really believed
that your evil deeds
would be appreciated
by demons and fiends
and that youll be treated like kings
then you really are the dumbest
Mudoken meat puppets
thats ever been
human well....
the shell at least
as this the path of the beast
and cycles of rebirth
may not be so lucky
as human life may be
a brief moment in eternity
of lives that may elevate
if you chose to see
but no this message is lost too tyranny....
so desperate to read what i write
but never does the meaning break through to minds eye.....
whats your excuse for defending the rotten
a message to the top straight from the bottom

and im out

Peace x

Cosy D.
